

Nephilim

The Nephilim are astral beings that have lived for a long time. Far longer than modern Man.

They are not related to humanity in anyway. Yet they are not AI although, through their mind sets they could be compared to AI.

The nearest example we have would be the ant mentality.

Now, like a lot of these sorts of creatures that inhabit the astral realms, they are drawn by curiosity towards Earth inhabitants with a view to seeing how they can profit from us. This concept of them profiting from us has led to the concept of them enslaving us to mine for gold. This is not true. They have no interest in anything physical. The gold they were and are after is information about how humans are created and every aspect of the human personality.

As we move more into Ascension, so their influence is being reduced and they will, one day, be totally banished from our reality.
