

World War 3

You create your reality.

The evil forces are trying to create WW3 in a last ditch stand to stop ascension.
But, if you keep in your mind the certainty that this will not occur, if we all do that, then WW3 cannot occur.

It is destined never to occur and the spiritual forces are working hard to see that it will not happen.

We can do our bit by holding on to the certainty that it will not happen and by thanking God that we are heading to a time of peace.
